- Adjustable Airflow Control (4 settings)
- Crossed Dual 1.4ohm SmartCoil™ technology
- Natural Cotton Wick for pur flavor
- 1.3ml capacity reservoir

Contents

- 1-Apollo™ SmartTank™ (As this part is made from pyrex glass, handle with care)
- 2-Replacement Atomizer SmartCoil™
- 5-Replacement Rubber Seals
- 1-Instruction Guide

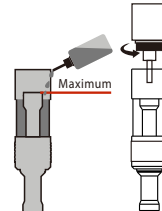

The Apollo™ SmartTank™ consists of four (4) parts (see below).

1. Tip: Mouthpiece for comfort of drawing
2. SmartTank™ Reservoir: Holds e-liquid. As this part is made of glass; handle with care.
3. Atomizer SmartCoil™: Heating element. Replace when diminished.
4. SmartTank™ Base: Holds SmartCoil™ in SmartTank™ reservoir.

TO REFILL:

1. Hold with the tip down; remove base from bottom of SmartTank reservoir.
2. Tilt SmartTank™ reservoir to the side. Insert liquid around the center tube. Do not over-fill past the top of the center tube or let liquid enter the center tube or leaking may occur.
3. Re-attach base to SmartTank™ reservoir tightly.

TO REPLACE SMARTCOIL™:

1. Remove base from bottom of SmartTank™ reservoir.
2. Remove SmartCoil™ from base.
3. Replace with new SmartCoil™.
4. Re-attach base to SmartTank™ reservoir tightly.
5. Allow liquid to saturate new SmartCoil™ for 5 minutes before use.

TO ADJUST AIRFLOW:

Simply turn the textured ring on the base to adjust airflow to the desired level.

TO REPLACE O-RINGS:

Over time the O-Rings will need to be replaced. A replacement base O-Ring, SmartTank O-Ring and mouthpiece O-Ring are included.
